What's the Matter with Energy?

The Asyra has incredible potential to help others. To keep you up to date with the newest system developments and to maximize opportunities to enhance your patients' quality of life, we now offer special seminars that cover several protocols, examine advanced features, and allow time to discuss clinical and technical questions.

Seminar Outline

Our bodies are driven and sustained by energy. When energy flow and cohesion patterns are inadequate or imbalanced, our well being suffers. In this seminar, we will cover pattern cohesion and energy flow, from the electron to the force carriers—and everything in between—and teach you how to use this unique, powerful energy protocol. We will also cover advanced allergy and addiction protocols, teaching you to design tests that will address related issues.

Location and Accommodations

These seminars are held at Utah's famous Little America Hotel—Salt Lake City at 500 South Main Street. **To make reservations with Little America, call 801-596-5700.** For more information, you may also visit their site at www.littleamerica.com/slc. The hotel offers round-trip shuttle service from the airport for only \$16 via Express Shuttle (www.expressshuttleutah.com), and travel time by taxi is only 15 minutes. For sightseers, the hotel is just a few blocks from the second most visited destination in the U.S.A., the Temple Square Visitors Center.

Each Seminar will be held on **Saturdays from 9:00 a.m. to 6:00 p.m.**, though we may extend the evening slightly if discussions call for doing so. Seminar attendance is limited to the first 45 technicians or doctors to register. Registration for each seminar is only \$150 per person.
